Hello there,

We respect and admire your courage to explore the option of adoption for your baby. We realize this is a very difficult decision for you and your family. Thank you for considering us as a family for your child. If you choose our family, we want to provide you with peace of mind that your child will be loved unconditionally and in a home full of laughter.

We both experienced the world of adoption from a young age and have always held a special place in our hearts for it. If chosen, know that we will provide a secure and loving family for your child. We are both hard working and love to travel with Breaker and explore new cultures. We cannot wait to grow our family and share experiences with another child. Breaker is very eager to have a little brother or sister to love on!

With love,

Calper, Callie & Breaker

about us

We met 12 years ago through mutual friends and became friends before dating. Over time, we realized there seemed to be something special about our friendship that we wanted to explore in dating one another. Once we began dating, we quickly fell in love and realized we should have dated years earlier!! 😊 We do appreciate the foundation we were able to build over the years of friendship.

Once dating, we enjoyed long conversations about our families, career goals, and visiting our favorite vacation spots. We love to tease one another and are truly best friends. We love listening to music, art exhibits, evening neighborhood walks, and traveling to new places. Our marriage is full of commitment, laughs, and putting family first.

"Our family values are commitment, respect, laughter, and leading with love."

BY ALPER

Part of what draws me and most others to Callie is her captivating personality and passion. No matter what she does, she gives it her all. She has a passion for giving back and gained this passion while growing up in Brazil. She and her family would spend their summers there helping single mothers and children. She always says it is what molded her passion and heart for others.

Callie is also really funny (she laughs at her own jokes which I poke fun of her for), family oriented, and successful as a mother and business woman. I am proud of her for being able to stay focused on family while maintaining her career. She is very outgoing and loves getting together with friends and family...she is always hosting gatherings for our families!

BY CALLIE

My favorite thing about Alper is how dynamic he is. He can be quiet and a great listener or talkative and outgoing depending on the situation. People feel very comfortable around him due to his kind demeanor. He is truly the smartest person I have ever met but is too humble to ever acknowledge it which has led to a lot of his career successes. He is a very hard worker and always up for a challenge.

Alper is nurturing, has a great sense of humor, and loves to learn. He enjoys meeting new people from all around the world through his career and speaks Turkish, Spanish, and English. He is full of energy and hard to keep up with because he rarely gets tired!! :) His dedication to his family shines for all to notice, and he would do anything for us.

meet breaker

The best two words to describe Breaker are sweet and mischievous. He loves playing with other kids and animals... his favorite game is chase! He definitely finds it funny to be mischievous or test the limits. We must admit, we rather love that about him. Breaker is typically very happy. We joke that he never has bad days because he is always smiling which makes our hearts happy. He is involved in karate, swim, and gymnastics. He and our puppy, Bernie, love to play fight with one another.

our home & community

We love our home and where we live. We live in a city in Texas where there is lots to do but also love our down time at home. Our backyard is beautiful, so we love spending time outside cooking out and swimming. Callie enjoys decorating so she wanted our home to be very special with being able to entertain children and loved ones.

Our friends are like family to us. We feel very blessed to have such a fun and supportive group around us from all different backgrounds.

WHY ADOPTION

We both had experiences with adoption while growing up. Callie's best friend who is like a sister to her was adopted. Alper's mother worked in adoption agencies. Even as friends, we would talk about the world of adoption. Once dating, we knew adoption would be part of growing our family when we married. We later found out that we cannot have any more biological children. We are beyond excited to start our adoption journey. We have the love, energy and resources to share our incredible life with another child and cannot wait!

"We are so eager to have another child to love and cherish. We look forward to completing our family through adoption."

WE PROMISE TO
